## Promising Partnership Practices—2016 Publication

**COLORADO**  
Department of Education

The State Advisory Council for Parent Involvement in Education (SACPIE), in collaboration with the Colorado Department of Education (CDE), is collecting promising practices from schools and districts across the state to publish in the second annual *Promising Partnership Practices—Colorado* book. SACPIE and CDE invite schools, districts, early childhood centers, institutions of higher education, accountability committees, parent-teacher committees, or any other school- or district-based council to submit an application for consideration in the publication. The purpose of this book is for schools, districts, and other educational organizations in Colorado to share how they partner with families and the community for student success.
